

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

P R E F A C E.

It having been suggested to me that a collection of Menus for easily-prepared Luncheon Dishes would be appreciated by the Public, I have brought out the accompanying little book on the subject.

Many of the receipts contained in it are obtained from family MSS. (one dating as far back as 1696), a few of the receipts are original, and several are new. I have given the cost of each dish, as far as possible, and have arranged the Menus with regard to the season of the year.

As regards decorations for the table, I have purposely omitted suggesting anything elaborate, because I consider that, however appropriate decorations may be for "dinner," luncheon being a daylight meal, the less the spotless linen of the table is hidden from view, except by fruit and flowers, the better is the taste displayed by the hostess.

I want to take this opportunity of thanking Mrs

Bagot for the valuable help she has given me in the present collection of receipts, as in a previous publication, viz., "Savouries and Sweets," which has met with considerable appreciation by the public.

I.

Table Decorations.—Take an oblong piece of drawn linen work handsomely embroidered in white between the drawings. It should be $1\frac{1}{4}$ yards long and nearly half a yard wide. On it, stand down the centre of the table three tall slender glass vases mounted in ornamental copper work. Arrange some sprays of pink almond blossom in the vases. Procure six or eight little copper plates or saucers, and fill them with the fashionable American bonbons in brown and pink colours. Tie up six small sprays of almond blossom with copper-coloured ribbon, and lay them on the tablecloth, on either side of the drawn linen work strip.

II.

Fill three oval-shaped silver baskets with mauve and white lilac, and stand them down the centre of the table. Tie twelve small sprays of the same flower with apple green ribbon, and lay two before each guest, alternately mauve and white.

12 TABLE DECORATIONS FOR SUMMER.

SUMMER.

I.

Table Decorations. — Procure an oval-shaped piece of looking-glass and lay it in the centre of the table, surround it with little green enamelled troughs made of tin. Fill them with feathery moss and maidenhair fern, and stick in a few sprigs of forget-me-nots as if they were growing. On the looking-glass put a flat oval-shaped glass dish, which fill with waterlilies opened out and resting on the water (the stalks must be cut off close to the heads, to make them lie flat); between the lilies place a few forget-me-nots, and lightly veil the whole with fronds of maidenhair.

II.

On a handsome piece of drawn linen work set a large blue china bowl in which roses of all colours are tastefully arranged.

By the table napkin of each guest, place a rosebud and foliage, alternately red and yellow.

Let sweetmeats of the colours of the roses used for decoration be arranged in small blue china saucers about the table.

AUTUMN.

I.

Table Decorations. — On an oblong piece of white satin embroidered in gold, place a tall trumpet-shaped green glass vase in hammered iron frame-work ; arrange on it lightly field poppies and grasses. Round the embroidered table centre trail some well-coloured blackberry sprays and leaves, forming a handsome cluster of berries and leaves at one corner.

II.

Use a d'oyley of fine drawn linen work for the centre of the table. Stand an oblong wicker basket in the middle of it, painted dead white. Decorate the basket with coloured leaves and the deep red berries of the bryony, twining a cluster round the handle. Place four similar white baskets (but of much smaller size) at the corners of the table, arranged to correspond.

Fill a dozen small silver gilt or brass bowls with red, yellow, and brown sweetmeats, and place them about the table. Each bowl should have a miniature pair of sugar tongs laid by the side of it for helping the bonbons.
